
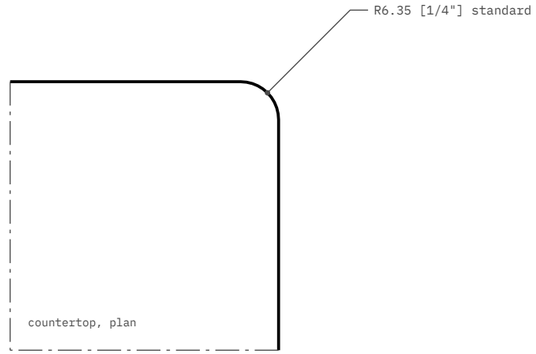
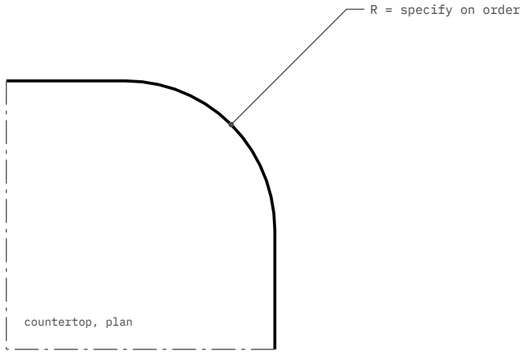
A D02 **STANDARD EDGE, SECTION**

SCALE 3:1 · square edge eased R0.8 · shown at 10 mm



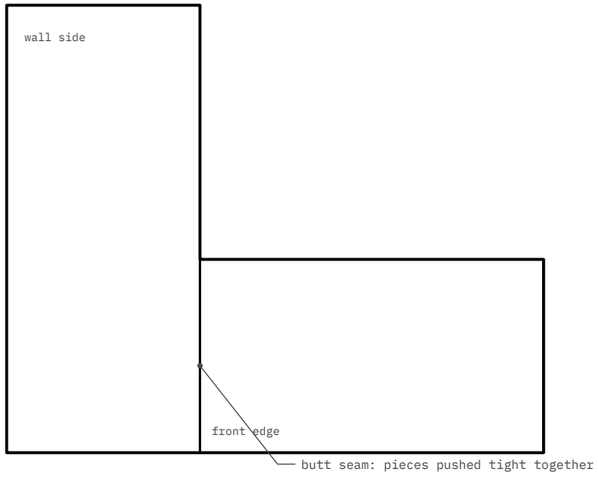
B D02 **OUTSIDE CORNER, PLAN**

SCALE 1:1 · standard radius R6.35 [1/4"]



C D02 **CUSTOM CORNER, PLAN**

SCALE 1:1 · tighter or softer radius on request



D D02 **L-SHAPE, PLAN**

SCALE 1:20 · one piece or butt-seamed, case by case

GENERAL NOTES

1. Edges are ground smooth and eased by hand to R0.8 mm. The square eased edge is the only edge profile offered.
2. Outside corners rounded to R6.35 [1/4"] as standard ("dime radius").
3. Custom corner radii available. State the radius on the quote request.
4. L-shapes are made in one piece or in sections, decided case by case by the overall size.
5. Where an L-shape is made in sections, the pieces are butted tight together at a seam (detail D).
